U.S. Army Materiel Command

The Army's Premier Provider of Materiel Readiness

April 27, 2007

Did you know? HQAMC BRAC Q&A

- **What is the current timeline for construction of the HQAMC building at Redstone Arsenal, Ala.?**

Construction will tentatively begin May 2008.

- **What is the size (square footage) and cost of the building?**

The tentative size of the facility is 580,000 square feet. Currently the programmed amount is \$127 million. We are still determining final requirements and final cost estimates.

- **How many employees will the building accommodate (include contractors in this total)?**

Tentatively the facility will accommodate approximately 1,700 employees. We are still determining final requirements.

- **When is the move expected to take place?**

The move is tentatively going scheduled for September 2010.

- **What is the estimated number of employees that will make the move?**

Based upon past surveys, approximately 30 percent of the employees will make the move from Fort Belvoir as of now. It is expected that this will increase between now and 2010 due to new employees arriving at HQAMC as a result of the BRAC relocation to Redstone Arsenal.

ARO scientist honored

Dr. A.M. Rajendran, a scientist with the Army Research Office, Durham, N.C., was recently awarded the Reissner Medal for his contributions to the mechanics of contact, impact and penetration in vehicle armor.
